

I want K-Love radio to stay on the air. It is the only station in the area that you now you can have your kids listen with no concern. It is in the public interest to keep, and preserve one of the only things still not completely vulgar in popular media today. It serves the community, and continually changes the lives of those who listen for the better day after day. To replace such a thing for any reason would be turning your back on the hand of God almighty. I know that you will be make the right choice.
